

MISSION STATEMENT

We are teachers, professionals, university students and others who support students at various levels in their academic programs as they struggle to maximize their learning experiences.

We value the input of teachers as we set up personalized instructional goals for each client.

We believe that the individual attention of the tutor provides motivational support and valuable assistance in targeting areas for improvement so students can reach their academic and vocational goals.

Math and Science: Basic computational skills and concepts, applications and word problems

Secondary: Calculus, Data Management, Algebra & Geometry, Physics, Biology, Chemistry, Essay Writing, Languages

Please call our office for availability of tutoring in other subjects:

(519) 948-8922

Who can benefit from School is Cool Tutorial Agency?

- students needing help with homework, assignments, study & organizational skills
- students struggling with the challenges of their curriculum
- students with learning differences: ADHD general or specific learning disabilities
- students in a secondary school program wishing to maximize their marks for university or college entrance

Where?

Most families choose the convenience of tutoring in their home although some choose a public, college or university library.

When?

At a time suitable for the student after school and on weekends.

Summer hours also available.

How Often? How Long?

The client may opt for regular hours or meet with the tutor on an as-needed basis.
